- **Backend Development:** Node.js, Prisma
- **Tools & Libraries:** Framer Motion, Context API, Git, GitHub, Slack, Jira
- **APIs & Integration:** Axios, TanStack Query, RTK Query, RESTful APIs
- **Other:** Next.js App Router, Agile Development

Professional Experience

Frontend Engineer

Entobo Engineering

Kuopio, Finland | 2024 – Present

- Developed and designed responsive web applications aligned with Figma design specifications.
- Ensured efficient API integrations using tools like Axios, TanStack Query, and RTK Query.
- Maintained code quality through clean and modular practices.
- Collaborated with cross-functional teams via Jira for task management and Slack for communication.
- Utilized Git for version control and collaborative development.
-

Frontend Engineer

Goziri Insurance Brokerage

Remote | 2023 – 2024

- Designed and implemented user interfaces with a focus on functionality and responsiveness.
- Wrote clean, maintainable, and industry-compliant code to enhance code integrity.
- Collaborated closely with the engineering team to deliver scalable frontend solutions.

Frontend Development Intern

Coderden Cohort

Remote | 2023

- Developed an eCommerce platform for gadgets, incorporating Stripe for payment processing.
- Translated Figma design prototypes into functional and visually appealing web pages.
- Applied DRY (Don't Repeat Yourself) principles to maintain high code quality.

Education & Certifications

- Coders Academy Bootcamp – 3-Month Program on Full-Stack Development
- JavaScript Mastery Course – Udemy
- Complete Next.js Course – Lama Codes
- Mechanical Engineering Degree Savonia UAS
